This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. EDITOR'S NOTE

The Proceedings of the American Association for the Advancement of Science were published as annual volumes from the founding of the Association until 1910. Since 1910 the announcements and the reports of the meetings, together with the presidential and vice-presidential addresses and other official publications, have appeared in the weekly journal SCIENCE, official organ of the Association, which is sent free to all members. The adoption of this plan rendered unnecessary the publication of the full proceedings, and they were replaced by volumes of summarized proceedings, with references to SCIENCE, published at intervals of several years. A volume of the SUMMARIZED PROCEEDINGS, including the Constitution, the Lists of Officers, references to SCIENCE for the Presidential and Vice-Presidential Addresses, and the List of Members, was published in 1912, and another in 1915. The present volume constitutes the third of the series of SUMMARIZED PROCEEDINGS, and it includes summaries for the years 1914–20, corresponding to what would be volumes LXVII–LXXIII of the full PROCEEDINGS if these had been continued in the earlier form.

The annual meetings of the Association are held at the Christmas holiday season of each year. In some years a summer meeting is held. The fiscal year of the Association now begins October 1, so that the annual meeting for that year occurs about three months later. (Previous to 1920, the fiscal year began November 1.) The permanent secretary's office employs the fiscal year, but the treasurer's office employs a year that nearly coincides with the calendar year. The free subscriptions to the journal, to which every member is entitled, are for the calendar year beginning three months after the beginning of the fiscal year for which annual dues are paid. The terms of office of the officers of the Association are for periods corresponding closely to those based on calendar years; regular elections occur at the annual meetings, and each term of office expires at the end of the annual meeting during which the

successor of the officer is elected. Thus, nearly twelve months elapse between the election of an officer and the occurrence of the first annual meeting at which he functions. It is thus seen that some confusion may arise when different years of the Association are referred to. To avoid this as far as possible, the customary calendar years are indicated throughout the present volume, wherever periods are mentioned. Thus, the fiscal year beginning November 1, 1918, which was really the *fiscal year 1919*, is referred to as the fiscal year 1918–19. In a similar manner, the third Chicago meeting is referred to as the annual meeting of 1920–21, although it properly belonged to the *fiscal year 1921*, which began October 1, 1920. References to the official terms of officers are conveniently made by the use of a single number corresponding to the calendar year or years that practically coincide with the official terms.

It should be specially noted that a new constitution was adopted by the Association at the third St. Louis meeting (annual meeting for 1919–20), and that this action involved the reorganization of the Association to a marked extent. The old sections stood until after the St. Louis meeting, and the new arrangement of sections first came into operation at the third Chicago meeting (annual meeting for 1920–21).

The summarized proceedings for the years here dealt with are presented in chronological order, with references to SCIENCE for all detailed reports, etc. Reference to the Table of Contents will guide the reader to the pages he wishes to consult. It has not been found practicable to provide an index to the present volume.

The Membership List, with which the volume closes, is corrected to June 15, 1921, in so far as information was supplied up to that date. On October 1, 1920, in preparation for this list, every member was asked to fill in the blanks on a special information card and to rerturn this card to the permanent secretary. Those who failed to respond to this request were asked again, and several subsequent requests of like nature were sent out from time to time. The majority of the members responded finally. But when the printer's proofs were in hand there were still a large number who had either not responded at all or else had given incomplete infor-

mation. The list was at that time completed from the addressograph file, by inserting the names and addresses of those who had not supplied the requisite information. Incompleteness or incorrectness of the information given in the list is generally due to failure of the member to respond to the several repeated requests just mentioned. Readers of this volume are asked to notify the Permanent Secretary's Office regarding all errors detected in the membership list, to the end that necessary corrections may be made in the card file, to be in readiness for the preparation of the next published list.

BURTON E. LIVINGSTON,
Permanent Secretary.

THE OLD CONSTITUTION OF THE AMERICAN ASSOCIATION FOR THE ADVANCEMENT OF SCIENCE

In force until January 3, 1920

Incorporated by Act of the General Court of the Commonwealth of Massachusetts

Objects

Article 1. The objects of the Association are, by periodical and migratory meetings, to promote intercourse between those who are cultivating science in different parts of America, to give a stronger and more general impulse and more systematic direction to scientific research, and to procure for the labors of scientific men increased facilities and a wider usefulness.

Membership

Art. 2. The Association shall consist of members, fellows, patrons, corresponding members and honorary fellows.

Members

Art. 3. Any person may become a member of the Association upon recommendation in writing by two members or fellows, and election by the Council. Any incorporated scientific society or institution, or any public or incorporated library, may be enrolled as a member of the Association by vote of the Council by payment of the initiation fee; such society, institution, or library may be represented by either the President, Curator, Director, or Librarian presenting proper credentials at any meeting of the Association for which the assessment has been paid.

Associates

Associates for any single meeting shall be admitted on the payment of three dollars, such associates to have all the privileges of the meeting, except reading papers and voting.

Members of scientific societies whose meetings are contemporaneous with, or immediately subsequent to, that of the Association, and which are recognized by vote of the Council as "Affiliated Societies," may become associate members for that meeting on the payment of three dollars. They shall be entitled to all the privileges of membership except voting or appointment to office, but their names shall not appear in the list of members printed in the report.

Foreign Associates

Any member or fellow of any national scientific or educational institution, or of any society, or academy of science of any country not in America, who may be present at any meeting of the Association shall, on presenting the proper credentials, be enrolled without fee as a Foreign Associate, and shall be entitled to all the privileges of the meeting except voting on matters of business.

Fellows

Art. 4. Fellows shall be elected by the Council from such of the members as are professionally engaged in science, or have, by their labors, aided in advancing science. The election of fellows shall be by ballot and a majority vote of the members of the Council at a designated meeting of the Council.

Patrons

Art. 5. Any person paying to the Association the sum of one thousand dollars shall be classed as a patron, and shall be entitled to all the privileges of a member and to all its publications.

Honorary Fellows and Corresponding Members

Art. 6. Honorary Fellows of the Association, not exceeding three for each Section, may be elected, the nominations to be made by the Council and approved by ballot in the respective sections before election by ballot in General Session. Honorary fellows shall be entitled to all the privileges of fellows, and shall be exempt from all fees and assessments , and entitled to all publications of the Association issued after the date of their election. Corresponding members shall consist of such scientists not residing in America as may be elected by the Council, and their number shall be limited to fifty.

Suspensions

Art. 7. The name of any member or fellow two years in arrears for annual dues shall be erased from the list of the Association, provided, that two notices of indebtedness, at an interval of at least three months, shall have been given, and no such person shall be restored until he has paid his arrearages or has been re-elected. The Council shall have power to exclude from the Association any member or fellow, on satisfactory evidence that said member or fellow is an improper person to be connected with the Association, or has in the estimation of the Council made improper use of his membership or fellowship.

Officers

Art. 8. No member or fellow shall take part in the organization of, or hold office in, more than one section at any one meeting.

Art. 9. The officers of the Association shall be elected by ballot by the General Committee from the fellows, and shall consist of a President, a Vice-

President from each section, a Permanent Secretary, a General Secretary, a Secretary of the Council, a Treasurer, and a Secretary of each Section; these, with the exception of the Permanent Secretary, the Treasurer, and the Secretaries of the Sections, shall be elected at each meeting for the following one, and, with the exception of the Treasurer and the Permanent Secretary, shall not be re-eligible for the next two meetings. The term of office of the Permanent Secretary, of the Treasurer, and of the Secretaries of the Sections, shall be five years.

President

Art. 10. The President, or in his absence, the senior Vice-President present, shall preside at all general Sessions of the Association and at all meetings of the Council. It shall also be the duty of the President to give an address at a General Session of the Association at the meeting following that over which he presided.

Vice-Presidents

Art. 11. The Vice-Presidents shall be chairmen of their respective Sections, and of their Sectional Committees, and it shall be part of their duty to give an address, each before his own section, at such time as the Council shall determine, at the meeting subsequent to that at which he presides. The Vice-Presidents may appoint temporary chairmen to preside over the sessions of their Sections, but shall not delegate their other duties. The Vice-Presidents shall have seniority in order of their continuous membership in the Association.

General Secretary

Art. 12. The General Secretary shall be the Secretary of all General Sessions of the Association, and shall keep a record of the business of these sessions. He shall receive the records from the Secretaries of the Sections, which, after examination, he shall transmit with his own records to the Permanent Secretary within two weeks after the adjournment of the meeting.

Secretary of the Council

Art. 13. The Secretary of the Council shall keep the records of the Council. He shall give to the Secretary of each Section the titles of papers assigned to it by the Council. He shall receive proposals for membership and bring them before the Council.

Permanent Secretary

Art. 14. The Permanent Secretary shall be the executive officer of the Association under the direction of the Council. He shall attend to all business not specially referred to committees nor otherwise constitutionally provided for. He shall keep an account of all business that he has transacted for the Association, and make annually a general report for publication. He shall attend

to the printing ordered by the Association. He shall issue a circular of information to members and fellows at least three months before each meeting, and shall, in connection with the Local Committee, make all necessary arrangements for the meetings of the Association. He shall provide the Secretaries of the Association with such books and stationery as may be required for their records and business, and shall provide members and fellows with such blank forms as may be required for facilitating the business of the Association. He shall collect all assessments and admission fees, and notify members and fellows of their election, and of any arrearages. He shall receive, and bring before the Council, the titles and abstracts of papers proposed to be read before the Association. He shall keep an account of all receipts and expenditures of the Association, and report the same annually at the first meeting of the Council, and shall pay over to the Treasurer such unexpended funds as the Council may direct. He shall receive and hold in trust for the Association all books, pamphlets, and manuscripts belonging to the Association, and allow the use of the same under the provisions of the Constitution and the orders of the Council. He shall receive all communications addressed to the Association during the intervals between meetings, and properly attend to the same. He shall at each meeting report the names of fellows and members who have died since the preceding meeting. He shall be allowed a salary which shall be determined by the Council, and may employ one or more clerks at such compensation as may be agreed upon by the Council.

Treasurer

Art. 15. The Treasurer shall invest the funds received by him in such securities as may be directed by the Council. He shall annually present to the Council an account of the funds in his charge. No expenditure of the principal in the hands of the Treasurer shall be made without a unanimous vote of the Council, and no expenditure of the income received by the Treasurer shall be made without a two-thirds vote of the Council. The Treasurer shall give bonds for the faithful performance of his duty in such manner and sum as the Council shall from time to time direct.

Secretaries of the Sections

Art. 16. The Secretaries of the Sections shall keep the records of their respective Sections, and, at the close of the meeting, give the same, including the records of subsections, to the General Secretary. They shall also be the Secretaries of the sectional committees. The secretaries shall have seniority in order of their continuous membership in the Association.

Vacancies

Art. 17. In case of a vacancy in the office of President, the senior Vice-President shall preside, as provided in Article 10, until the General Committee can be assembled and the vacancy filled by election. Vacancies in the offices

of Vice-President, Permanent Secretary, Secretary of the Council, Secretaries of the Sections, and Treasurer, shall be filled by the Council by ballot.

Council

Art. 18. The Council shall consist of the Past Presidents, and the Vice-Presidents of the last two meetings, together with the President, the Vice-Presidents, the Permanent Secretary, the General Secretary, the Secretary of the Council, the Secretaries of the Sections, and the Treasurer of the current meeting, of one fellow elected from each Section by ballot on the first day of its meeting, of one fellow elected by each affiliated society, and one additional fellow from each affiliated society having more than twenty-five members who are fellows of the Association, and of nine fellows elected by the Council, three being annually elected for a term of three years. The members present at any regularly called meeting of the Council, provided there are at least five, shall form a quorum for the transaction of business. The Council shall meet on the day preceding each annual meeting of the Association, and arrange the program for the first day of the sessions. The time and place of this first meeting shall be designated by the Permanent Secretary. Unless otherwise agreed upon, regular meetings of the Council shall be held in the Council room at 9 o'clock A. M., on each day of the meeting of the Association. Special meetings of the Council may be called at any time by the President. The Council shall be the board of supervision of the Association, and no business shall be transacted by the Association that has not first been referred to, or originated with, the Council. The Council shall decide which papers, discussions, and other proceedings shall be published, and have the general direction of the publications of the Association; manage the financial affairs of the Association; arrange the business and programs for General Sessions; suggest subjects for discussion, investigation of reports; elect members and fellows; and receive and act upon all invitations extended to the Association and report the same at a General Session of the Association. The Council shall receive all reports of Special Committees and decide upon them, and only such shall be read in General Session as the Council shall direct. The Council shall appoint at each meeting the following subcommittees who shall act, subject to appeal to the whole Council, until their successors are appointed at the following meeting: 1, on Papers and Reports; 2, on Members; 3, on Fellows.

General Committee

Art. 19. The General Committee shall consist of the Council and one member or fellow elected by each of the Sections, who shall serve until their successors are elected. It shall be the duty of the committee to meet at the call of the President and elect the general officers for the following meeting of the Association. It shall also be the duty of this committee to fix the time and place for the next meeting. The Vice-President and Secretary of each Section shall be recommended to the General Committee by the Sectional Committee.

Meetings

Art. 20. The Association shall hold a public meeting annually for one week or longer, at such time and place as may be determined by vote of the General Committee, and the preliminary arrangements for each meeting shall be made by the Local Committee, in conjunction with the Permanent Secretary and such other persons as the Council may designate.

But, if suitable preliminary arrangements cannot be made, the Council may afterwards change the time and place appointed by the General Committee, if such change is believed advisable by two-thirds of the members present.

Art. 21. A General Session shall be held at 10 o'clock A. M., on the first day of the meeting, and at such other times as the Council may direct.

Sections and Subsections

Art. 22. The Association shall be divided into Sections—namely, A, *Mathematics and Astronomy;* B, *Physics;* C, *Chemistry, including its application to Agriculture and the Arts;* D, *Engineering;* E, *Geology and Geography;* F, *Zoology;* G, *Botany;* H, *Anthropology and Psychology;* I, *Social and Economic Science;* K, *Physiology and Experimental Medicine;* L, *Education;* M, *Agriculture.* The Council shall have power to create additional Sections from time to time and to discontinue, combine or re-arrange existing Sections. The Council shall have power to consolidate any two or more Sections temporarily, and such consolidated sections shall be presided over by the senior Vice-President and Secretary of the Sections comprising it.

Sectional Committees

Art. 23. Immediately on the organization of a Section there shall be a member or fellow elected by ballot after open nomination, who, with the Vice-President and Secretary and the preceding Vice-President and Secretary and the Presidents and Secretaries of those affiliated societies which shall be designated by the Council and the members or fellows elected by ballot at the four preceding meetings, shall form its Sectional Committee. The Sectional Committees shall have power to fill vacancies in their own numbers. Meetings of the Sections shall not be held at the same time with a General Session. The Sectional Committee may invite distinguished foreign associates present at any meeting to serve as honorary members of said Committee.

Art. 24. The Sectional Committee of any Section may at its pleasure form one or more temporary Subsections, and may designate the officers thereof. The Secretary of a Subsection shall, at the close of the meeting, transmit his records to the Secretary of the Section.

Art. 25. No paper shall be read at any Section or Subsection until it has been placed on the program of the day by the Sectional Committee.

Art. 26. The Sectional Committee shall arrange and direct the business of their respective Sections. They shall prepare the daily programs and give

them to the Permanent Secretary for printing at the earliest moment practicable. No titles of papers shall be entered on the daily programs except such as have passed the Committee. No change shall be made in the program for the day in a Section without the consent of the Sectional Committee. The Sectional Committee may refuse to place the title of any paper on the program; but every such title, with the abstract of the paper or the paper itself, must be referred to the Council with the reasons why it was refused. The Sectional Committees shall also make nominations to the General Committee for Vice-President and Secretary of their respective Sections as provided for in Article 19.

ART. 27. The Sectional Committee shall examine all papers and abstracts referred to the Sections, and they shall not place on the program any paper inconsistent with the character of the Association; and to this end they have power to call for any paper, the character of which may not be sufficiently understood from the abstract submitted.

PAPERS AND COMMUNICATIONS

ART. 28. All members and fellows must forward to the Secretary of the proper Section or to the Permanent Secretary, as early as possible, and, when practicable, before the convening of the Association, full titles of all the papers which they propose to present during the meeting, with a statement of the time that each will occupy in delivery, and also such abstracts of their contents as will give a general idea of their nature, and no title shall be considered by a Sectional Committee until an abstract of the paper or the paper itself has been received.

ART. 29. If the author of any paper be not ready when called upon, in the regular order of the official program, the title may be dropped to the bottom of the list.

ART. 30. Whenever practicable, the proceedings and discussions at General Sessions, Sections and Subsections, shall be reported by professional reporters, but such reports shall not appear in print as the official reports of the Association unless revised by the Secretaries.

PRINTED PROCEEDINGS

ART. 31. The Permanent Secretary shall publish from time to time a list of officers and members of the Association together with such other matter as the Council may direct. Immediately on publication of the volume, a copy shall be forwarded to every member and fellow of the Association who shall have paid the assessment for the meeting to which it relates, and it shall also be offered for sale by the Permanent Secretary at such price as may be determined by the Council. The Council shall also designate the institutions to which copies shall be distributed.

LOCAL COMMITTEE

ART. 32. The Local Committee shall consist of persons interested in the objects of the Association and residing at or near the place of the proposed

meeting. It is expected that the Local Committee, assisted by the officers of the Association, will make all essential arrangements for the meeting, and issue a circular, giving necessary particulars, at least one month before the meeting.

Library of the Association

Art. 33. All books and pamphlets received by the Association shall be in charge of the Permanent Secretary, who shall have a list of the same printed and shall furnish a copy to any member or fellow on application. Members and fellows who have paid their assessments in full shall be allowed to call for books and pamphlets, which shall be delivered to them at their expense on their giving a receipt agreeing to make good any loss or damage, and to return the same free of expense to the Permanent Secretary at the time specified in the receipt given. All books and pamphlets in circulation must be returned at each meeting. Not more than five books, including volumes, parts of volumes, and pamphlets, shall be held at one time by any member or fellow. Any book may be withheld from circulation by order of the Council. [The Library of the Association was, by vote of the Council in 1895, placed on deposit in the Library of the University of Cincinnati, Ohio. Members can obtain the use of books by writing to the Librarian of the University Library, Cincinnati, Ohio.]

Admission Fees and Assessments

Art. 34. The admission fee for members shall be five dollars in addition to the annual dues.

Art. 35. The annual dues for members and fellows shall be three dollars.

Art. 36. Any member or fellow who shall pay the sum of fifty dollars to the Association, at any one time, shall become a Life Member; and as such shall be exempt from all further assessments, and shall be entitled to the Proceedings of the Association. All money thus received shall be invested as a permanent fund, the income of which, during the life of the member, shall form a part of the general fund of the Association; but, after his death, shall be used only to assist in original research, unless otherwise directed by unanimous vote of the Council. (New members becoming life members must pay the admission fee of five dollars.)

Art. 37. All fees and dues must be paid to the Permanent Secretary, who shall give proper receipts for the same.

Accounts

Art. 38. The accounts of the Permanent Secretary and of the Treasurer shall be audited annually by Auditor appointed by the Council.

Alterations of the Constitution

Art. 39. No part of the Constitution shall be amended or annulled, without the concurrence of three-fourths of the members and fellows present in General Session, after notice given at a General Session of a preceding meeting of the Association.

THE NEW CONSTITUTION OF THE AMERICAN ASSOCIATION FOR THE ADVANCEMENT OF SCIENCE

As adopted at the St. Louis (1920) Meeting, and amended at the Chicago (1921) Meeting; in force since January 3, 1920

Article 1—Objects

The objects of the Association are to promote intercourse among those who are cultivating science in different parts of America, to coöperate with other scientific societies and institutions, to give a stronger and more general impulse and more systematic direction to scientific research, and to procure for the labors of scientific men increased facilities and a wider usefulness.

Article 2—Membership

Persons willing to coöperate in the work of the Association may be elected to be Members by the Council. Members who are professionally engaged in scientific work or who have advanced science by research may be elected to be Fellows. The admission fee for Members is five dollars; the annual dues are five dollars. A member who pays at one time the sum of one hundred dollars to the Association becomes a life member and is exempt from further dues. A person who gives one thousand dollars to the Association may be elected to be a sustaining member and is exempt from further dues.

Article 3—Officers

The officers of the Association shall be elected by ballot by the Council, and shall consist of a President, a Vice-President from each section, a Permanent Secretary, a General Secretary, a Treasurer and a Secretary of each Section. The President and the Vice-Presidents shall be elected for one year, the other officers for four years. The officers shall perform the usual duties of these officers, under the direction of the Council.

Article 4—Council

The Council shall consist of the President, the Vice-Presidents, the Permanent Secretary, the General Secretary, the Secretaries of the Sections, and the Treasurer, of one fellow elected by each affiliated society and one additional fellow from each affiliated society having more than one hundred members who are fellows of the Association, and of eight fellows, two elected annually by the Council for a term of four years. There shall be an Executive Committee of the Council, consisting of the President, the Permanent Secretary,

the General Secretary, and eight members elected by the Council, two annually for a term of four years. The Council may appoint standing or temporary committees to make reports, to assist in the conduct of the work of the Association and to promote its objects.

Article 5—Sections

The Association shall be divided into the following Sections: A, *Mathematics;* B, *Physics;* C, *Chemistry;* D, *Astromony;* E, *Geology and Geography;* F, *Zoological Sciences;* G, *Botanical Sciences;* H, *Anthropology;* I, *Psychology;* K, *Social and Economic Sciences;* L, *Historical and Philological Sciences;* M, *Engineering;* N, *Medical Sciences;* O, *Agriculture;* P, *Manufactures and Commerce;* Q, *Education.* Members of the Association shall be members of that Section or of those Sections under which their work or their interests fall. Members of Section shall nominate to the Council a Chairman, who becomes *ex officio* a Vice-President of the Association and whose term of office shall be one year, and a Secretary, whose term of office shall be four years. These officers, together with four fellows, one elected annually by the Section for a term of four years, and the representatives on the Council of affiliated societies in the same field shall form a Sectional Committee. This Committee shall arrange the scientific programs of the meetings and may form sub-sections or hold joint meetings with other sections or other societies. It may appoint committees and shall in all ways promote the objects of the Association within its own field.

Article 6—Divisions and Branches

Regional Divisions and Local Branches of the Association may be formed by vote of the Council. Such Divisions and Branches may elect officers, hold meetings, appoint committees, enter into relations with other societies and promote within their fields the objects of the Association.

Article 7—Associated and Affiliated Societies

National and local scientific societies may, by vote of the Council, become associated with the Association. Those Associated Societies which the Council shall designate as Affiliated Societies shall be represented on the Council and on the Sectional Committees as provided in Articles 4 and 5.

Article 8—Meetings

The Association shall hold an annual meeting at such time and place as may be determined by the Council. Other meetings of the Association and of the Sections may be authorized by the Council. The Divisions and the Branches may hold annual and other meetings.

Article 9—Proceedings

The proceedings of the Association and the list of officers and members shall be published in such manner as the Council may direct.

Article 10—Funds

The Permanent Secretary shall collect the annual dues and make expenditures as directed by the Council. The Treasurer shall deposit or invest the permanent funds of the Association, as provided for trust funds by the laws of the state of Massachusetts or the state of New York. Bequests and gifts will be administered in accordance with the provisions of the donors. The payments from sustaining and life members form part of the permanent fund, and the income (after the death of the member) shall be used for research, unless otherwise directed by unanimous vote of the Council or by a majority vote at two consecutive annual meetings.

Article 11—Alteration of the Constitution

This Constitution may be amended at a general session by unanimous vote, or by a majority vote at two consecutive annual meetings.

BY-LAWS AND RULES OF PROCEDURE OF THE AMERICAN ASSOCIATION FOR THE ADVANCEMENT OF SCIENCE

I

The Association is American, its field covering North, Central and South America. Inhabitants of any country are eligible to membership.

II

1. An incorporated scientific society or institution or a public or incorporated library may become a member by vote of the Council.

2. Associates, on payment of five dollars, may be admitted to the privileges of a meeting, except voting.

3. Foreign associates may be admitted without fee to the privileges of a meeting, except voting.

4. All members who are professionally engaged in scientific work, or who have advanced science by research, may be elected by the Council to be fellows on nomination or on their own application. This qualification is understood to have been met by members of affiliated societies having a research qualification.

5. The Council may exclude from the Association any one who has made improper use of his membership or whose membership is regarded as detrimental to the Association.

III

1. The Permanent Secretary, the General Secretary and the Treasurer of the Association and the Secretaries of the Sections shall be elected at the larger convocation week meetings held once in four years beginning the last week of the year 1916. Vacancies in these offices shall be filled by the Council.

2. The President of the Association shall give an address at a general session of the Association at the annual meeting following that over which he presided.

3. The Vice-Presidents shall hold seniority in the order of their continuous membership in the Association.

4. The Permanent Secretary shall attend to the business of the Association, the arrangements for the meetings and such other matters as the Council may designate. He may employ, with the approval of the Council, an Assistant Secretary. The salary of the Permanent Secretary shall be determined by the Council.

5. The General Secretary shall attend to matters connected with the organization of the Association, its relations to the affiliated societies and such other matters as the Council may designate. He shall receive such compensation as may be determined by the Council.

6. The Permanent Secretary, the General Secretary and the Treasurer shall present annually to the Council an account of the funds in their charge. These accounts shall be audited by an Auditor elected by the Council. There shall be a Finance Committee of three, elected by the Council, including the Treasurer, who shall give advice in regard to the investment of the funds of the Association. The Treasurer and the Permanent Secretary and General Secretary shall present a budget to the Council for the year following the annual meeting.

IV

1. There shall be a Committee on Grants, appointed by the President, with the advice of the Council, consisting of eight members, two appointed annually for a period of four years, which shall award for scientific research such part of the income from the permanent and special funds of the Association as may be appropriated for that purpose by the Council.

2. The following standing committees are authorized: Committee of One Hundred on Scientific Research; Committee of One Hundred on National Health; Committee on Delegates from Educational and Scientific Institutions; Committee on Expert Testimony; Committee on the Jane M. Smith Life Membership Fund.

3. A local committee shall be organized by the members resident in the place where a meeting of the Association is held. This committee may appoint an executive committee and other committees and shall make arrangements for the meeting, in coöperation with the Permanent Secretary and the other officers of the Association.

V

1. The Sectional Committees shall arrange for each annual meeting a program of general scientific interest, occupying usually one or two sessions. The section shall not hold sessions for the reading of special papers when the affiliated society in the same field meets with the Association.

2. No member shall take part in the organization or hold office in more than one section at any one meeting.

VI

1. The Pacific Division and the Southwestern Division and other Divisions that may be authorized by the Council have full control of their meetings, their affiliations with other scientific organizations, and of all movements to promote the advancement and diffuson of science in their territory. The Pacific Division and the Southwestern Division shall be allowed for their

expenses the entrance fees collected through their efforts and one dollar a year for each member in good standing.

2. The Pacific Division includes all members resident in Alaska, British Columbia, Washington, Oregon, California, Idaho, Nevada, Utah, Mexico (excepting the states of Sonora and Chihuahua), the Hawaiian Islands, the Philippine Islands, and other islands of the Pacific ocean.

3. The Southwestern Division includes all members resident in Arizona, New Mexico, Texas west of the Pecos river, and the Mexican states of Sonora and Chihuahua.

4. Local Branches may be formed by members residing in the same locality. These branches shall be allowed for their expenses the entrance fees collected through their efforts and an amount for their expenses not to exceed one dollar for each member in good standing.

VII

1. Affiliated societies having two representatives on the Council and on the Sectional Committees are:*—

American Mathematical Society. (A).

VIII

1. A general session of the Association shall usually be held on the first evening of the meeting, and at this session the address of the retiring president shall be given. Other general sessions may be arranged by the Council.

2. The Council shall ordinarily meet on the afternoon of the first day of the meeting. It may also meet at such other times as may be decided, and shall ordinarily hold a meeting in the spring at Washington.

3. The Sectional Committees shall ordinarily hold meetings on the morning of the first day of each annual meeting and may hold such other meetings as they may arrange.

4. The Executive Committee shall meet on the day preceding the annual meeting and at such other times during the meeting as it may decide. It shall ordinarily hold meetings in the spring and in the autumn.

IX

1. By arrangement with the publishers of SCIENCE this journal publishes the official notices and proceedings of the Association and is sent to all members in good standing, the sum of $3 being paid to the publishers of the journal for each member. Members may by request receive *The Scientific Monthly* in place of SCIENCE. This arrangement may be cancelled by the Council of the Association or by the publishers of the journal, after one year's notice has been given by either party.

X

1. The official year of the Association shall begin on October 1, and the dues of the members are payable on that date. Only members who have paid their dues shall enjoy the privileges of the meetings and receive publications of the Association, but those not longer than two years in arrears for dues are retained on the membership list. Members dropped from membership for non-payment of dues may have their names reinstated by payment of arrearages or may be reelected with payment of the entrance fee. In the case of members of affiliated societies elected to membership in the American Association for the Advancement of Science within one year of their election to membership in the affiliated society, the entrance fee shall be remitted.

2. The Secretaries of the Association and of the Sections shall be allowed in lieu of their traveling expenses to the annual meeting, a refund amounting to 4 cents a mile for the round trip.

3. Members of the Executive Committee shall be allowed, in lieu of their traveling expenses in attendance on meetings of the Committee held apart from the meetings of the Association, a refund amounting to 4 cents a mile for the round trip.

XI

These By-Laws and Rules of Procedure may be amended by vote of the Council.

DIVISIONS OF THE AMERICAN ASSOCIATION

In accordance with the provisions of the By-Laws of the Association (Art. VI) two regional divisions have been established. Each division operates under its own constitution, which has been ratified by the Council or the Executive Committee of the Association. Each division collects the entrance fees of new members and the first annual dues of each new member. It retains the entrance fees for its own expenses and transmits the annual dues to the permanent secretary's office. After the first year of membership, members of the divisions receive their annual statements from the permanent secretary's office, and they pay their annual dues to that office. Each division receives from the permanent secretary's office one dollar for each payment of annual dues received from Association members resident in the region of the division at the time dues are received. Members of the divisions have all the obligations and privileges of other members of the Association. The constitutions of the two divisions follow.

CONSTITUTION OF THE PACIFIC DIVISION OF THE AMERICAN ASSOCIATION FOR THE ADVANCEMENT OF SCIENCE

Article 1—Purposes

The purposes of the Pacific Division of the American Association for the Advancement of Science are to encourage research in all branches of science, pure and applied, to diffuse knowledge, and to foster the scientific spirit among the people, by Division meetings held within the Pacific Coast region, and by such other means as the Executive Committee of the Division may adopt.

Article 2—Territory

The Pacific Coast region includes: the states of Washington, Oregon, California, Idaho, Nevada and Utah; Alaska; the Province of British Columbia; Mexico, excepting the states of Sonora and Chihuahua; the Hawaiian Islands; the Philippine Islands; and other islands of the Pacific Ocean.

Article 3—Membership

The membership of the Pacific Division shall consist of: (a) Individuals living in the Pacific Coast region who are members or fellows of the American

Association for the Advancement of Science; and (b) Affiliated Societies. Individual members or fellows living in the Pacific Coast region shall enjoy all the privileges of members and fellows, respectively, of the American Association.

Article 4—Affiliated Societies

It is a purpose of the Pacific Division to promote the interests of science through definite and formal coöperation with all scientific societies of good standards represented in the Pacific Coast region. Formal invitation to membership by affiliation shall be extended to societies by a two-thirds vote of the Executive Committee. Those societies which accept this invitation and whose presidents sign the Constitution of the Pacific Division shall be known as Affiliated Societies.

Article 5—Officers

The officers of the Pacific Division shall consist of a President, a Vice-President and Chairman of the Executive Committee, and a Secretary-Treasurer. These officers shall be elected by the Executive Committee of the Division. The President and Vice-President shall be elected from the fellows of the Division.

Article 6—President

The President shall be elected as soon as practicable following the close of an annual meeting and shall serve from the date of his election to the close of the next annual meeting. He shall preside over all general meetings of the Division and deliver an address on some subject selected by him at the first annual meeting of the Division following the close of his term of office.

Article 7—Vice-President and Chairman of the Executive Committee

The Vice-President and Chairman of the Executive Committee shall be elected as soon as practicable following the close of an annual meeting and shall serve from the date of his election to the close of the third succeeding annual meeting. He shall preside at all meetings of the Executive Committee, and, in the absence of the President, at all general meetings of the Division.

Article 8—Secretary-Treasurer

The Secretary-Treasurer shall be elected for a term of three years but he shall serve further until the election of his successor. He shall keep the records of the Division, of the Executive Committee, and of the Affiliation Committee. He shall receive and transmit dues and fees received from members and fellows to the Permanent Secretary of the American Association. He shall arrange for the printing of programs prepared by the Executive Committee, the Affiliated Societies, and the Sections, prior to the meetings concerned. He shall

incur expenses only as authorized by the Executive Committee, and shall pay out money only on accounts approved by the Chairman of the Executive Committee. He shall perform such other duties as may be assigned to him by the Executive Committee.

Article 9—Executive Committee

The Executive Committee shall consist of the President, the Vice-President (who shall be ex-officio Chairman of the Committee), and seven members elected from the fellows of the Pacific Division. Not more than two of the seven members elected by the Division shall be representative of the same division of science.

Vacancies occurring in the Executive Committee by the expiration of the terms of office of its members elected by the Division shall be filled by elections, and the persons so elected shall serve for five years. The election of the members of this Committee shall occur at the general annual meetings of the Division by the ballots of the individual members and fellows of the Division. Those candidates receiving the highest number of votes consecutively shall be declared elected for the position about to become vacant. The terms of office of members of the Executive Committee shall terminate at the close of the annual meetings at which their successors are elected. A vacancy occurring before the expiration of the term of office of a member may be filled by the President's appointment, and such an appointee shall serve until there is opportunity to fill the vacancy by election at a general annual meeting. Five members of the Executive Committee shall constitute a quorum. Unless otherwise specified decisions of the Executive Committee shall be made by a majority vote of the members present.

It shall be the duty of the Executive Committee, as soon as practicable after the close of each annual meeting, to elect: a President for the term then beginning; a Vice-President, if a vacancy exists; and a Secretary-Treasurer, if a vacancy exists or is about to occur. These elections shall be made by a majority vote of all members of the Executive Committee, and this vote shall be by ballots handed or mailed to the Secretary-Treasurer of the Division.

The Executive Committee shall likewise elect the officers of any Sections which may be organized, and take any necessary action on Sectional programs. The Executive Committee shall have charge of all general business affecting the welfare of the Pacific Division that is not otherwise delegated by the Constitution.

Article 10—Nominating Committee

Sixty days or more prior to each annual meeting of the Pacific Division, the Vice-President shall appoint a Nominating Committee to consist of three fellows of the Division. This Committee shall nominate candidates for election to fill vacancies about to occur in the elective membership of the Executive Committee elected by the Division, and shall present its report at

a general session of the annual meeting. The list of nominations shall contain twice as many names as there are vacancies to be filled.

Article 11—Affiliation Committee

The Affiliation Committee shall consist of the President, the Vice-President, one other member of the Executive Committee of the Division, and two delegates from each Affiliated Society. The President of the Division shall be ex-officio Chairman of this committee; but for such meetings as the President cannot attend, the Committee shall select a Chairman *pro tempore*. The Secretary-Treasurer of the Division shall serve as Secretary of this Committee.

It shall be the duty of this Committee to consider and act upon such affiliation relationships, not defined by the Constitution, as affect the welfare of the Affiliated Societies collectively or in their relations to each other. It shall have the right to levy assessments on the Affiliated Societies for the expenses of general meetings of the Division which include the coöperation of the Affiliated Societies, by ballots mailed to the Secretary-Treasurer, upon majority of votes cast. The Committee shall consider such other subjects as are referred to it from general meetings of the Division. The regular meetings of the Affiliation Committee shall be held in connection with the general meetings of the Division; other meetings may be held at the call of the Chairman. A majority of the membership of this Committee shall constitute a quorum, and all decisions shall be by a majority vote of the members present.

Article 12—Meetings of the Division

The Division shall hold one general annual meeting for the presentation of technical and general programs, and such special meetings as the Executive Committee may appoint and arrange for.

Article 13—Arrangement of Program

The Executive Committee shall arrange for all general sessions, public lectures, and general scientific programs.

The Pacific Division shall organize or maintain no Sections for the presentation of technical programs in the branches of science represented by Affiliated Societies.

The Executive Committee may organize Sections to present programs in those branches of science for which no other provision has been made, such Sections to be maintained only until those subjects shall be provided for by Affiliated Societies.

The technical programs in the branches of science represented by the Affiliated Societies shall be organized by the separate societies with one member of the Executive Committee of the Pacific Division as a member of the Program Committee of each Society. Individual members of the Pacific Division who are not members of Affiliated Societies may present worthy papers in

the proper programs and take reasonable part in the discussion of papers under the same regulations that govern participation by members of Affiliated Societies.

Any Affiliated Society deciding that its interest will be best served in any given year by holding its annual meetings at some other time or place than that selected for the general meeting of the Division may have this privilege without loss of affiliation, provided its presiding officer notifies the Executive Committee promptly in writing of the reasons governing this action, and the Division shall not establish a temporary Section to represent the subject in question.

Article 14—Officers of Sections

Chairmen of Sections shall be elected for terms of one year by the Executive Committee, upon the recommendation of the Sections. They shall preside over the meetings of the Sections.

Secretaries of Sections shall be elected by the Executive Committee for terms of three years. They shall keep the records of the proceedings of their Sections and transmit these records to the Executive Committee as required.

The Chairman and Secretary of each Section and one member of the Executive Committee of the Division shall constitute a Committee to prepare the program for the Section.

Article 15—Papers and Communications

A member or fellow who desires to read a paper before a Section of the Division should present in writing to the Secretary of the Section, at least twenty-four hours before the opening of the series of meetings, the full title of the paper, the time required for delivery, and an abstract of its contents; and no title shall be considered by the Sectional Committee until an abstract of the paper, or the paper itself, has been received by the Committee.

Program Committees of Sections may invite papers and discussions by nonmembers who are recognized as having made definite contributions to the advancement of their subjects.

Article 16—Finance

Fees and dues received from members and fellows, with the exception of assessments from Affiliated Societies, shall be transmitted to the Permanent Secretary of the American Association, who will supply receipts.

Funds received from patrons in the Pacific Coast region and from gifts, bequests or other similar sources, shall be invested as trust funds by the Executive Committee, and the income therefrom shall be expended for the advancement and diffusion of knowledge.

The Executive Committee shall have authority to maintain and administer special funds, such as local contributions for special purposes, moneys appropriated by Affiliated Societies, and other funds not named herein.

The salary of the Secretary-Treasurer of the Pacific Division shall be fixed by the Council of the American Association, upon recommendations of the Executive Committee of the Pacific Division, and shall be paid from appropriations made by the Council. Appropriations for administrative and other expenses shall be made by the Council, in the same manner, and shall be expended as described in Article 8.

Article 17—Termination of Membership

Individual memberships may be terminated in accordance with the provisions of the Constitution of the American Association governing this subject.

An Affiliated Society in good standing may withdraw from membership by vote of its members and by formal notice of this action sent to the Executive Committee.

An Affiliated Society may be dropped from membership for lack of coöperation, non-payments of assessments, lowness of standards, or other reasons, by a two-thirds vote of the Executive Committee, and of the Affiliation Committee, and upon formal notification of the Society by the Secretary-Treasurer of the Division that this action has been taken.

Article 18—Changes in the Constitution

No part of this Constitution shall be changed without the concurrence of two-thirds of the members and fellows present in a general session of the Pacific Division, after written notice given at a general session of a preceding general meeting of the Pacific Division; changes affecting the status of the Affiliated Societies shall require an affirmative vote of the Affiliation Committee; and all changes to become effective shall require ratification by the Council of the American Association.

Article 19—Ratification

This Constitution shall become effective upon ratification by the Council of the American Association.*

CONSTITUTION OF THE SOUTHWESTERN DIVISION OF THE AMERICAN ASSOCIATION FOR THE ADVANCEMENT OF SCIENCE

Article 1—Purposes

The purposes of the Southwestern Division of the American Association for the Advancement of Science are to encourage research in all branches of science, pure and applied, to diffuse knowledge, and to foster the scientific spirit among the people, by Division meetings held within the Southwestern region, and by such other means as the Executive Committee of the Division may adopt.

* This Constitution was ratified by the Council of the American Association for the Advancement of Science Washington, D. C., April 21, 1914.

Article 2—Territory

The Southwestern region includes the states of Arizona, New Mexico, that portion of Texas west of the Pecos river (approximately the 102nd meridian), together with the Mexican states of Sonora and Chihuahua, and other adjacent regions and states as shall be hereafter included.

Article 3—Membership

The membership of the Southwestern Division shall consist of: (a) Individuals living in the Southwestern region who are members or fellows of the American Association for the advancement of Science; and (b) Affiliated Societies. Individual members and fellows of the American Association living in the Southwestern region shall enjoy all the privileges of members of the Southwestern Division.

Article 4—Affiliated Societies

It is a purpose of the Southwestern Division to promote the interests of science through definite and formal coöperation with all scientific societies of good standards represented in the Southwestern region. Formal invitation to membership by affiliation shall be extended to societies by a two-thirds vote of the Executive Committee. Those societies which accept this invitation and whose presidents sign the Constitution of the Southwestern Division, shall be known as Affiliated Societies.

Article 5—Officers

The officers of the Southwestern Division shall consist of a President, a Vice-President and Chairman of the Executive Committee, and a Secretary-Treasurer. These officers shall be elected by the Executive Committee of the Division. The President and Vice-President shall be elected from the fellows of the Division.

Article 6—President

The President shall be elected as soon as practicable following the close of an annual meeting and shall serve from the date of his election to the close of the next annual meeting. He shall preside over all general meetings of the Division and deliver an address on some subject selected by him at the first annual meeting of the Division following the close of his term of office.

Article 7—Vice-President and Chairman of the Executive Committee

The Vice-President and Chairman of the Executive Committee shall be elected as soon as practicable following the close of an annual meeting and shall serve from the date of his election to the close of the third succeeding annual meeting. He shall preside at all meetings of the Executive Committee, and, in the absence of the President, at all general meetings of the Division.

Article 8—Secretary-Treasurer

The Secretary-Treasurer shall be elected for a term of three years but he shall serve further until the election of his successor. He shall keep the records of the Division, of the Executive Committee, and of the Affiliation Committee. He shall receive and transmit dues and fees received from members and fellows to the Permanent Secretary of the American Association. He shall arrange for the printing of programs prepared by the Executive Committee, the Affiliated Societies, and the Sections prior to the meetings concerned. He shall incur expenses only as authorized by the Executive Committee, and shall pay out money only on accounts approved by the Chairman of the Executive Committee. He shall perform such other duties as may be assigned to him by the Executive Committee.

Article 9—Executive Committee

The Executive Committee shall consist of the President, of the Vice-President, who shall be ex-officio the Chairman of the Committee, and of five members elected from the fellows of the Southwestern Division. Not more than two of the five members elected by the Division shall be representative of the same division of science.

Vacancies occurring in the Executive Committee by the expiration of the terms of office of its members elected by the Division shall be filled by elections, and the persons so elected shall serve for three years. The election of the members of this Committee shall occur at the general annual meetings of the Division by the ballots of the individual members and fellows of the Division. Those candidates receiving the highest number of votes consecutively shall be declared elected for the positions about to become vacant. The terms of office of members of the Executive Committee shall terminate at the close of the annual meetings at which their successors are elected. A vacancy occurring before the expiration of the term of office of a member may be filled by the President's appointment, and such an appointee shall serve until there is opportunity to fill the vacancy by election at a general annual meeting. Four members of the Executive Committee shall constitute a quorum. Unless otherwise specified decisions of the Executive Committee shall be made by a majority of the members present.

It shall be the duty of the Executive Committee, as soon as practicable after the close of each annual meetig, to elect: a President for the term then beginning; a Vice-President if a vacancy exists; and a Secretary-Treasurer, if a vacancy exists or is about to occur. These elections shall be made bv a majoritv vote of all members of the Executive Committee, and this vote shall be bv ballots handed or mailed to the Secretarv-Treasurer of the Division.

The Executive Committee shall likewise elect the officers of anv Sections which may be organized, and take anv necessarv action on Sectional programs.

The Executive Committee shall have charge of all general business affecting the welfare of the Southwestern Division that is not otherwise delegated bv the Constitution.

Article 10—Nominating Committee

Sixty days or more prior to each annual meeting of the Southwestern Division, the Vice-President shall appoint a Nominating Committee to consist of three fellows of the Division. This Committee shall nominate candidates for election to fill vacancies about to occur in the elective membership of the Executive Committee elected by the Division, and shall present its report at a general session of the annual meeting. The list of nominations shall contain twice as many names as there are vacancies to be filled.

Article 11—Affiliation Committee

The Affiliation Committee shall consist of the President, the Vice-President, and of one delegate from each Affiliated Society. The President of the Division shall be ex-officio Chairman of this committee; but for such meetings as the President cannot attend, the Committee shall select a Chairman *pro tempore*. The Secretary-Treasurer of the Division shall serve as Secretary of this Committee.

It shall be the duty of this Committee to consider and act upon such affiliation relationships, not defined by the Constitution, as affect the welfare of the Affiliated Societies collectively or in their relations to each other. It shall have the right to levy assessments on the Affiliated Societies for the expenses of general meetings of the Division which include the coöperation of the Affiliated Societies, by ballots mailed to the Secretary-Treasurer, upon majority of votes cast. The Committee shall consider such other subjects as are referred to it from general meetings of the Division; other meetings may be held at the call of the Chairman. A majority of the membership of this Committee shall constitute a quorum, and all decisions shall be by a majority vote of the members present.

Article 12—Meetings of the Division

The Division shall hold one general annual meeting for the presentation of technical and general programs, and such special meetings as the Executive Committee may appoint and arrange for.

Article 13—Arrangement of Programs

The Executive Committee shall arrange for all general sessions, public lectures, and general scientific programs.

The Southwestern Division shall organize or maintain no Sections for the presentation of technical programs in the branches of science represented by Affiliated Societies.

The Executive Committee may organize Sections to present programs in those branches of science for which no other provision has been made, such Sections to be maintained only until those subjects shall be provided for by Affiliated Societies.

The technical programs in the branches of science represented by the Affiliated Societies shall be organized by the separate societies, with one member of the Executive Committee of the Southwestern Division as a member of the Program Committee of each Society. Individual members of the South western Division who are not members of Affiliated Societies may present worthy papers in the proper programs and take reasonable part in the discussion of papers under the same regulations that govern participation by members of Affiliated Societies.

Any Affiliated Society deciding that its interests will be best served in any given year by holding its annual meetings at some other time or place than that selected for the general meeting of the Division may have this privilege without loss of affiliation, providing its presiding officer notifies the Executive Committee promptly in writing of the reasons governing the action, and the Division shall not establish a temporary Section to represent the subject in question.

Article 14—Officers of Sections

Chairmen of Sections shall be elected for terms of one year by the Executive Committee, upon the recommendation of the Sections. They shall preside over the meetings of the Sections.

Secretaries of Sections shall be elected by the Executive Committee for terms of three years. They shall keep the records of the proceedings of their Sections and transmit these records to the Executive Committee as required.

The Chairman and Secretary of each Section and one member of the Executive Committee of the Division shall constitute a Committee to prepare the program for the Section.

Article 15—Papers and Communications

A member or fellow who desires to read a paper before a Section of the Division should present in writing to the Secretary of the Section, at least twenty-four hours before the opening of the series of meetings, the full title of the paper, the time required for delivery, and an abstract of its contents; and no title shall be considered by the Sectional Committee until an abstract of the paper, or the paper itself, has been received by the Committee.

Program Committees of Sections may invite papers and discussions by non-members who are recognized as having made definite contributions to the advancement of their subjects.

Article 16—Finance

Fees and dues received from members and fellows, with the exception of assessments from Affiliated Societies, shall be transmitted to the Permanent Secretary of the American Association, who will supply receipts.

Funds received from the patrons in the Southwestern region and from gifts, bequests, or other similar sources, shall be invested as trust funds by the

Executive Committee, and the income therefrom shall be expended for the advancement and diffusion of knowledge.

The Executive Committee shall have authority to maintain and administer special funds such as local contributions for special purposes, moneys appropriated by Affiliated Societies, and other funds not named herein.

Article 17—Termination of Membership

Individual membership may be terminated in accordance with the provisions of the Constitution of the American Association governing this subject.

An Affiliated Society in good standing may withdraw from membership by vote of its members and by formal notice of this action sent to the Executive Committee.

An Affiliated Society may be dropped from membership for lack of coöperation, nonpayment of assessments, lowness of standards, or other reasons, by a two-thirds vote of the Executive Committee and of the Affiliation Committee, and upon formal notification of the Society by the Secretary-Treasurer of the Division that this action has been taken.

Article 18—Changes in the Constitution

No part of this Constitution shall be changed without the concurrence of two-thirds of the members and fellows present in a general session of the Southwestern Division, after written notice given at a general session of a preceding general meeting of the Southwestern Division, and all changes to become effective shall require ratification by the Executive Committee of the American Association;* changes affecting the status of the Affiliated Societies shall require an affirmative vote of the Affiliation Committee.

ACADEMIES OF SCIENCE, ETC., HAVING A FINANCIAL ARRANGEMENT WITH THE AMERICAN ASSOCIATION THROUGH AFFILIATION

Twelve academies of science, and also the Southern Education Society, are affiliated with the Association by a form of coöperation that carries certain financial obligations. The affiliated academies collect the Association dues of their national members (who are also members of the Association), and they transmit to the permanent secretary's office four dollars of each of the annual payments. They are supplied with printed and addressed statements prepared by the permanent secretary's office. Acade-

mies collect the entrance fees and the first annual dues of their new national members; they retain the entrance fees and one dollar for each of the annual payments collected from their national members. Exception is made for life members of the Association and members of the divisions. The Southern Education Society has a coöperative arrangement with the Association, similar to that of the affiliated academies.

* The annual meeting for any year occurs about three months after the beginning of that fiscal year, and the fiscal year begins on the October 1 preceding the meeting. Thus, the St. Louis meeting (December 29, 1919, to January 3, 1920) was the annual meeting for the fiscal year 1920, and this fiscal year began October 1, 1919. This plan for the designation of the annual meeting differs somewhat from that followed in the 1915 volume of the Summarized Proceedings. The officers are elected at annual meetings and their terms of office begin at the close of the annual meeting at which they are elected. Thus, the term of office of the President for the 72nd annual meeting (1919–1920) began December 29, 1919, and ended January 3, 1920. He gave his address as Retiring President at the 73rd annual meeting. The numbers referring to years in this list of presidents are for the respective fiscal years, since the Philadelphia meeting. THE VICE-PRESIDENTS, SECRETARIES, AND TREASURERS OF THE AMERICAN ASSOCIATION FOR THE ADVANCEMENT OF SCIENCE FROM ITS ORGANIZATION TO THE YEAR 1921

For a complete list of the vice-presidents, secretaries, and treasurers to the year 1915, see the preceding volume of the PROCEEDINGS (volumes LXIII—LXVI, combined; published in 1915), pages 36–48. The following lists are to be added to those there shown. The number preceding the officer's name is that of the meeting at which he officiated, and the number following denotes the calendar year of his official term. (See footnote, page 40.)

ADVANCEMENT OF SCIENCE

[CORRECTED TO JUNE 15, 1921]

EDITED BY

SAM F. TRELEASE, *Assistant Secretary.*

PREFACE TO THE MEMBERSHIP LIST

It is intended that each entry of this list* shall include the following items:

1. *The surname followed by the given name or names or initials,* all after the surname being in the natural order and having parentheses around parts usually omitted in correspondence. An asterisk preceding a surname indicates that the member has been elected to fellowship. The names of Life Members and those of Sustaining Members (see article 2 of the Constitution) are printed in large and small capital letters. The names of Sustaining Members are printed separately at the beginning, as well as in the body of the list.

2. *The degree or degrees* received from colleges, universities, etc.

3. *The year of election* to membership (following the letter M), the year in which the member became a life member (following the letter L), the year in which the member became a sustaining member (following the letter S), the year of election to fellowship (following the letter F). Thus, M17, F19, L20 denotes membership since 1917, fellowship since 1919, and life membership since 1920.

4. *The official title* or position.

5. *The name and address of the institution* or firm with which the member is connected.

6. *Special mail address,* different from that of the institution or firm, this being in parentheses.

7. *Sections of the Association* to which the member is allied, shown by their letter designation as set forth in the following list of sections.

* The names of societies, libraries, and other institutions or organizations holding membership in the Association are not given in the body of the membership list, but are grouped separately at the end (see p. 711).

A, *Mathematics;*
B, *Physics;*
C, *Chemistry;*
D, *Astronomy;*
E, *Geology and Geography;*
F, *Zoological Sciences;*
G, *Botanical Sciences;*
H, *Anthropology;*
I, *Psychology;*
K, *Social and Economic Sciences;*
L, *Historical and Philological Sciences;*
M, *Engineering;*
N, *Medical Sciences;*
O, *Agriculture;*
P, *Manufactures and Commerce;*
Q, *Education.*

All of the items just enumerated are not requisite for every entry. Some of them are omitted from entries for which they should be given, but such omissions are generally due to the fact that the members in question failed to respond to repeated requests for information. The original list was prepared directly from the information cards received from the members (see Editor's Note at beginning of this volume), and it was finally completed, when printer's proofs were in hand, by inserting the remaining names contained in the addressograph file, with such information as was there shown. Those who consult the list are asked to inform the Permanent Secretary's Office regarding all errors detected.

The By-Laws and Rules of Procedure provide that only members who have paid their dues shall enjoy the privileges of the meetings and receive the free publications of the Association, but that those not longer than two years in arrears for dues are to be retained on the membership list. Because of war conditions this period of grace has been temporarily somewhat increased, and the present roll includes the names of all living members who have paid their annual dues up to and including the fiscal year 1917–18, and who have not resigned. On October 1, 1920, all names not credited with the annual payment for the fiscal year 1916–17 were dropped.

On March 31, 1921, there were 350 life or sustaining members; 9,287 annual members whose dues had been paid for the current year; 453 names retained on the list but in arrears for 1918–19, 1919–20, and 1920–21; 773 names retained but in arrears for 1919–20; and 1,085 annual members in arrears for the current year (1920–21)—making a total of 11,948 names on the roll, of which 9,637 were in good standing.—The complete list, as here printed, contains 11,934 names.—*Editor.*
